

## **VOLARE WALL SCONE**

Perfect for hallways, corridors or for corners of a room where a traditional floor lamp would take up floor space, the Volare is a minimal wall sconce washing walls mounted vertically or horizontally with only a short 59mm projection off the wall face.

The name Volare, Italian for 'fly', relates to the inhouse manufacturing technique we use to achieve the unique pattern in the front of the rail. These lines fanning out suggest movement and add texture and depth to the wall it resides on.

The Volare features an IP65 rated LED strip light with an external driver and suitable for outdoor and wet area use.

**MATERIAL**

Solid Brass\*  
 Solid Stainless Steel  
 Aged Bronze\*  
 Blackened Brass\*

\* Living finish
