

DALE DOOR RAIL

Dale is Dave's square brother. After knurling round objects for over 100 years, we thought why can't flat surfaces join the party? The Dale rail features a flat knurl pattern on its front face adding a three-dimensional detail to a minimal door rail. This pattern is produced using a custom tool developed by the clever people at Savage Design making it unique to the brand.

Milled from solid brass and stainless steel it is left raw in order to age like your favourite pair of jeans. A quick polish however will turn your handles back to new and crank your doors up to eleven. Our pre aged finish, aged bronze, is also available that will mature with time and use.

Brass (BR)

Aged Bronze (BO)

Blackened Brass (BB)

Stainless Steel (SS)
