

Alison Table

Alison Table

This series stays true to our passion of using premium materials. The simplistic frame is produced in marine grade stainless steel making the table perfect for in or outdoors. The table top and adjustable feet being offered in stainless steel (raw or powdercoated), brass or aged bronze makes the material and finish the hero of the piece.

Available two heights, coffee table and side table, and two options for top diameter, connects our Albert furniture range with our hardware and lighting through its frame design, echoing Albert and the four finishes standard on our handles and lights.

Alison Table

Material

Frame

Stainless Steel Powder Coated

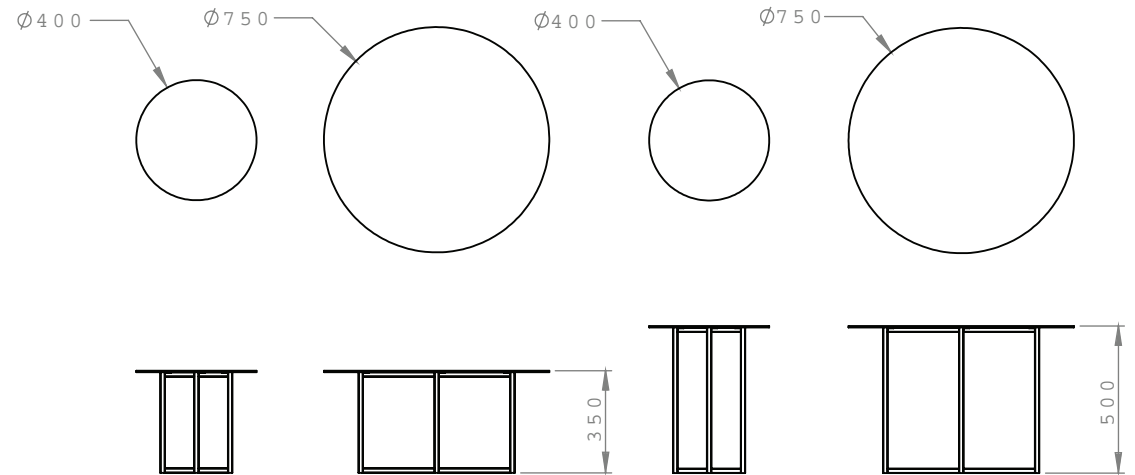

Top

Brass (raw) / Stainless steel (raw)
Aged bronze / Black (powdercoat)

To match top

Dimensions

Care instruction

Wipe down with a damp cloth. Don't not use abrasives and avoid chemicals. Warm mild soapy water can be used on stubborn dirt. Dry surface after cleaning with a clean cloth.

Raw materials

This product is made from raw material and is prone to aging

Outdoor use

This product can be used out doors. The brass and aged bronze finish will patina quickly when used outside.
