

**Albert  
Bar Stool**

### **Albert Bar Stool**

Albert is an honest, bare bones stool with straight lines and minimal structure. It is designed for purpose and not pretending to be something it is not. With a sleek leather top this stool is sophisticated and up for movement with its built in handle.

The minimal frame is made in stainless steel and powder coated black for an elegant aesthetic.

## Albert Bar Stool

### Material

#### Frame

Stainless Steel Powder Coated  
Black Textured

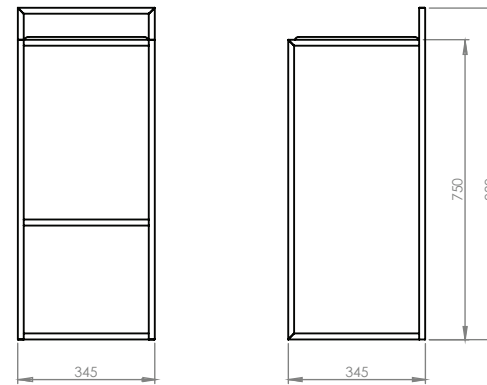

#### Pad

Black Leather

### Weight

5.7 kg

### Dimensions

### Care instruction

Wipe down with a damp cloth. Don't not use abrasives and avoid chemicals. Warm mild soapy water can be used on stubborn dirt. Dry surface after cleaning with a clean cloth.

### Raw materials

This product is made from raw material and is prone to aging

### Timbers, leathers and stones

All these materials are natural and therefore have natural variations in colour, patterns and grains. These materials are also all porous, meaning they will absorb moisture and can stain.
